## ABOUT ME

A passionate iOS developer, headstrong to coding, looking for a position from where my quality service can adorn the users' lives with ease and comfort. My love to learn new things and problem solving skills led me to achieve most of the users' positive feedbacks, but did not get stopped there, rather worked for the negative feedbacks to achieve furthermore success. Hopeful to devise my own brand in the future.

## SKILLS

### MY SPECIALITIES

- iOS Development
- Swift
- Auto Layout
- Accessibility
- Combine
- Git & GitHub
- UI/UX Design
- Android Development

### SOFT SKILLS

- Teamwork
- Pair Programming
- Time Management
- Leadership

## WORK EXPERIENCE

### RW iOS Interview Practice Project

Enabled users to view the available tutorial posts. Filtering possible based on the type (article or video). Supports **Dynamic Type**, helps users to increase the text size based on their preferences. Also supports **VoiceOver Accessibility** features. Showcased my iOS skill sets including UIKit, URLSession, CollectionView and Combine.

### Git Explorer - iOS

Helped my fellow boot campers to learn and work with git commands. My first ever iOS project outside RW iOS Bootcamp homework. Assembled JSON Encoding & Decoding, Selection Picker, Custom UIView, AutoLayout. Merged the pull requests with my codebase sent by teammates.

### Junior Android Developer

Bangladesh Youth Leadership Center

The first-ever Android Developer to join this Non-Profit organization, developed and maintained its educational Android App.

- **UI/UX:** Took the initiative to do user research to remain relevant in the market. Prepared a questionnaire and researched 600+ students from high school to the university level. Developed a UX based on user pain points and their suggestions. Redesigned the existing app according to the UX.

- **Maintaining the App:** Used the Open edX platform for web and Android. Customized the UI/UX of the app and kept up to date with the open-source project. Also built multiple variant projects from the same source code for public users as well as corporate users.

## SPEECH

Introduced **Kotlin Coroutine** in the local Android Meetup at Dhaka. Motivated the listeners to start thinking of introducing Coroutine into their codebases. Talked about how easy to use Kotlin Coroutine is and its first-class support in the Android SDK.

## INTEREST

Learning

Travelling

Cycling

Swimming

Writing

## COURSES & TRAINING

### Raywenderlich iOS Bootcamp

Went from zero knowledge to Junior level iOS developer through this Bootcamp. Learned about Swift, UIKit, TableView, CollectionView, SwiftUI, CoreData, URLSession, GCD, and many more and implemented them in my app within only 13 weeks. Confidence grew up at a level to work on the production application by completing weekly assignments. Worked in a team and practiced teamwork, pair programming, and collaboration on GitHub.

### Building Bridges Through Leadership Training

Learned how to collaborate with a team with great communication among teammates. Allowed me to empathize with my team and value the opinions of the teammates and all these things combinedly brought a great outcome when went for a community project to practice leadership.

### Mooc Courses

Always love to learn new things. Participated in various mooc courses including:

- Introduction to Programming in Swift 5
- Introduction to iOS App Development with Swift 5
- Introduction to UI Design
- Kotlin for Java Developers

## EDUCATION

### Daffodil International University

2016 - Present

### Bachelor of Science in Computer Science and Engineering

Final semester student with current CGPA 3.94 out of 4.00

May,20 - Aug,20

Dec,16 - Mar,17

Jun,16 - Present
